

Dear UV 4000 Customer

It has been our pleasure to work with [International Innovative Systems](#) for over 10 years as a supplier of Surge Suppression Devices. Their CE approved XT40-3Y201F SPD's has been offered as an option to protect our UV4000 water treatment systems being shipped to Europe.

Trojan UV incorporates surge suppression in product which has identified the need for this technology. For aftermarket surge suppression solutions, we are confident that International Innovative Systems can provide the necessary product and expertise.

Regards
